EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims

At claim 35, line 7, add "a" before the phrase "source and destination";

At claim 55, line 3, add "a" before the phrase "source and destination";

At claim 61, line 5, add "a" before the phrase "source and destination";

Examiner's Remarks

The Examiner's amendment above is purely non-substantive and was made to correct minor grammatical errors.

Allowable Subject Matter

2. Claims 35-68 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest alone or in combination a method and apparatus, comprising a processor that maintains a continuous aggregate per egress port counts, wherein the packets are stored in flow controllable queues based on an associated flow of the packets rather than egress ports associated with the packets, wherein the aggregate per egress port count for an egress port is updated to account for changes to the flow controllable queues associated therewith as the changes occur rather than summing a count for each flow controllable queue associated therewith as required by the independent claims in combination with the other recited claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
